

P&E MINING CONSULTANTS INC.

Geologists and Mining Engineers

Corporate Profile

P&E Mining Consultants Inc., established in 2004, provides geological and mine engineering consulting reports, Mineral Resource Estimate technical reports, Preliminary Economic Assessments and Pre-Feasibility Studies. In addition we are affiliated with major Toronto based consulting firms for the purposes of joint venturing on Feasibility Studies. Our experience covers over 300 technical reports on diamonds, most metallic deposits including gold, silver, base metals, PGM and iron for both open pit and underground deposits. Software packages utilized include Gemcom, Whittle, NPV Scheduler, Vulcan and AutoCad.

Our more than 20 associates have experience in geological interpretation, 3D geologic modeling, technical report writing, Mineral Resource and Mineral Reserve Estimates, property evaluations, mine design, production scheduling, operating and capital cost estimates and metallurgical engineering. P&E Mining Consultants Inc. operates under Certificates of Authorization from the provinces of Ontario, Newfoundland and Saskatchewan. Associates are also licenced in the provinces of British Columbia, Quebec and New Brunswick.
